

MONATONC UNIVERSITY

Series 1, number 23

This issue is to announce the formation of two new Postal Diplomacy games. They players are drawn from the collection of Diplomacy players in the San Francisco Bay area known to me; I have no objection to running further games, and at all times solicit more players. Especially paying players.

Spring, 1801 moves are due phone # 176, N198305 so get off of the dime...

Press releases are always welcome as you attempt literary perfection, though, try to remember that you are writing propaganda, and do not waste a gorgeous opportunity to further court your friends or, at least, vilify your enemies. The most potent attack and defense strategy in Postal Diplomacy is to get in your moves the turn your enemy missed his...

For this game, most of the fees have been taken care of by trades, or by previous debts. James Justin Dygert must pay the standard fee of \$2.50 before I'll print his Fall 1801 moves, though...

Thus an exercise in cramming information. Its not that I'm cheap in the matter of sparing stencils, its that I'm poor. Game fees of \$2.50 are owed by Dygert, Turner, and Bailey, since it was apparently their idea to hold this thing, and \$1.00 is due from Schow and Johnson. Brannan and Fisher usually help turn out MISKATONIC, and, in any event, I never have to mail them copies.

MISKATONIC UNIVERSITY IS FOR THE COASTAL CRAWL, AND AGAINST THE CHANGING OF THE GUARD.

All MISKATONIC UNIVERSITY rules as expressed last issue will apply to MB, and all but rule #4 will apply to MCQ

Moves will be due in weekly from both games-We will allow three seasons per game year-Spring, Fall, and Winter Builds. Generally, it is recommended that players submit tentative moves as soon as they receive their issues, and phone in any revisions. Oh, yes- the deadline for Spring, 1967 moves is Feb 14, 1967, at six o'clock in the evening; a period thereafter is 'free time, untill I publish... Is that all. Well, if you have any questions, phone me at 415-934-9779

MISKATONIC UNIVERSITY is published at the sign-of the four by:
